Discover the Holiday Gardening Recipes and Home Cooking Home Improvement Ideas Cleaning and Store Organization News Room Beauty & Family Pet Services Local Turning 21 is a ritual of passage for Americans as it is old when it was finally legal to drink alcohol. It was the final milestone of formal adulthood, with voting rights set at age 18, marriage rights varying by state and extended driving rights for children as young as 16. Getting stone-drunk on your birthday may sound like fun in theory, but it can make memories of the evening dim later. So here are some ideas to bring in your big 21 as an adult adult. Make your 21st year the year of global trotting. You don't need a big budget to travel. Ditch lavish hotels, and go for small, inexpensive people, or even check hostels. You can also connect with friends abroad and stay with people you know. That way, you can experience the local taste and experience the wonderful culture. Even if your budget doesn't allow travel abroad, try to find a way out of your comfort zone for a while, to meet new people and experience new things. If you have relocated from your childhood, visit where you were born. Meet old neighbors, family friends and people you've ever known. Maybe they have pictures or stories to share with you. When you return to your birth place, you realize what a long way you have come. Of course, if you can't make the visit, or if the childhood memories of your birth place are not happy people, you may take some time to reconnect with old acquaintances and families you have not seen or spoken to for a while. Birthdays are a good time to look back on everything you've achieved. How about giving away all the things that you've grown out of? Find a charity that will be happy to collect your old belongings. There is a certain pleasure in giving away. You will cherish this memory forever. If you plan to go partying with friends, make sure someone is awake to take you home safely or you have a smartphone to contact a taxi or car-sharing service. Do not drive after you have drunk alcohol. As you get older, you are also obliged to grow wiser. Your 21st birthday is the perfect occasion to plan your future. Look back at the milestones you've achieved and reflect on the life ahead: What do you want to do next year? How do you plan to improve your life? What are the mistakes you never want to repeat? And finally, here are a few quotes that could give you inspiration for your 21st birthday: The man who watched the world at fifty like he did in his twenties wasted thirty years of life your own. — Muhammad Ali When a man is tired of life on his 21st birthday, it indicates that he is quite tired of something in himself. — F. Scott Fitzgerald At the age of twenty, will reign; at the age of thirty, intelligence; and at the age of forty, judgment. — Benjamin Franklin Lives as Long as Possible. It is sure to attract this kind of curiosity. 21 is an important milestone and should not be treated like any other birthday. It's the ultimate transition into adulthood and all the privileges and responsibilities it en demands. You should try to make this extra day special by using these tips to buy a thoughtful gift. Questions to ask yourself: I start your birthday gift buying adventure, you will need to ask yourself what you know about the recipient. What are their ho preferences? Think about what you two love to do together, the memories you've shared, and the embarrassing moments, too. You know, dirt. A 21st birthday party is nothing if it doesn't celebrate the highs and lows, the talented and (lovely) bug, of one celebrating their birthday. Don't worry about prices, worry about thoughtfulness: The best gift is a gift that reflects your friendship or relationship. Even a cheap gag gift can go a long way if it has some thought or sentiment value attached to it. Also, think about the kind of people they are. They may prefer something a little more degrading, or they may be the kind of person who doesn't like physical gifts, but likes the experience. This can mean the difference between buying them expensive candles or buy them a scuba diving adventure. Save money by taking part in a group gift. If you're on a budget, the best way to get a gift that's worthy of a 21st birthday is by buying a group gift. Ask your friends who are attending the party if they want to join something and see how many people you can join. In theory, the more people choose to participate, the bigger and better you will now be able to buy. If you're not close to a birthday guy or girl, this is a great way to skip gift decisions altogether because you can ask the team member who knows them best to choose the gift. Whatever you decide ... Remember, even if the invitation says no gift request, it's a nice gesture to bring something, even if it's small. The best gifts are thoughtful people, so take a moment to consider your friends and friendships before you start shopping.
